

## Benefits of Data Synchronization

---

### To Our Suppliers:

---

SUPERVALU's mission is to provide outstanding service and we believe that accurate data in our systems will facilitate our mission. Therefore SUPERVALU and other leading retailers including Wal-Mart and Wegmans are actively synchronizing data in the Global Data Synchronization Network (GDSN) today.

It is imperative that our suppliers play an active role in this program to ensure a successful business relationship.

### What is Global Data Synchronisation Network (GDSN)

---

Global Data Synchronisation Network (GDSN) is a network of interoperable data pools and a Global Registry (the GS1 Global Registry) that allows the timely and auditable distribution of certified standardised master data (Trade Item and Party) from a data source to a final data recipient of this information.

### What is 1SYNC?

---

1SYNC is an industry standard utility for item registration and data synchronization between suppliers and retailers. 1SYNC Data Pool Services assist trading partners in exchanging standards-compliant data in the Global Data Synchronization Network (GDSN).
