

Steps to Synchronizing GDSN Data with Wegmans

1. **Contact Wegmans at Kathleen.Welch@wegmans.com, Kamaria.Rivera@wegmans.com, or Samantha.Schuler@wegmans.com with the following information:**
 - Your Company GLN.
 - State whether your company has previously registered items in the GS1 Global Registry.
 - The name and contact information of the key contact for data sync at your company.

2. **Load items to your data pool**
 - Ensure your data is accurate at all levels of the hierarchy (dimensions - including TI/Hi, pack quantities, measurements, weights, etc.).
 - For TI/Hi: If sending Pallet GTINs, populate the following attributes: quantityOfTradeltemsContainedInACompleteLayer (Ti) and quantityOfLayersPerPallet (Hi).
 - For TI/Hi: If you are NOT sending Pallet GTINs, please populate Ti/Hi on the Case using the attributes quantityOfLayersPerPallet (Non-GTIN Pallet Hi) and quantityOfTradeltemsPerPalletLayer (Non-GTIN Pallet Ti).
 - Be sure to include the Coupon Family Code attribute.

3. **Publish items currently in the Wegmans Catalog**
 - Publish to the Wegmans GLN: 0077890000007.
 - For existing items that Wegmans carries, publish as Initial Load. (Publishing as New is used only for items that Wegmans does not currently carry).
 - If any discrepancies in data, send a “correction/change to fix the data.”

Steps to Synchronizing GDSN Data with Wegmans *cont'd.*

4. **Manage Confirmation (CIC) responses from Wegmans**

- Wegmans will provide feedback on the initial results in the form of CIC messages back to the supplier and take the necessary steps to accept the information that is accurate and complete.
- REVIEW: Item containment issue.
- ACCEPT: New item has been accepted, but not set-up in Wegmans system. When the new item is set-up, within Wegmans system, will send a synchronized message to the supplier.
- SYNCHRONIZED: Item has been successfully updated in system
- REJECT: If the item has been discontinued and is no longer carried or item was sent as a wrong publication type; was initial item load vs. new item.
- Wegmans uses status codes to provide additional information about next steps.

5. **Going forward, all changes should come through 1SYNC.**

Wegmans Timeline

Wegmans

- As an active Wegmans' supplier, you should take the necessary steps to begin actively synchronizing accurate product data with Wegmans. It is critical that you publish your product data to Wegmans before **December 31, 2008**.
- 1SYNC has committed resources to assist suppliers in accomplishing this task. Please take every advantage of this opportunity to move forward.
