LAWRENCEVILLE, NEW JERSEY, March 29, 2006—1SYNC™, a leading Data Pool and provider of data synchronization services, today announced that twenty five technology providers had achieved certification as 1SYNC Solution Partners.

The 1SYNC Solution Partner Program is designed to help companies simplify the implementation process for data synchronization. Participating technology providers pass a comprehensive series of rigorous tests to confirm their solution offerings meet technical performance standards that will enable customers to seamlessly connect to the 1SYNC Data Pool.

As more industries and trading partners embrace data synchronization as a way to improve business, 1SYNC's Solution Partner Program provides a pool of highly qualified technology providers to help companies quickly adopt and utilize this technology. With a broad range of certified Solution Partners available, 1SYNC customers can select a provider that is best suited to meet their specific needs, such as company size, technology platform, or system infrastructure. The program can take the guesswork out of implementing data synchronization, and the proven track records and expertise of certified Solution Partners can speed up the integration process.

The following companies have achieved certification as 1SYNC Solution Partners: Cactus Commerce, Inc.; Click Commerce, Inc.; Data Technology Plc; EXTOL International, Inc.; FSE, Inc.; FullTilt; GXS; IBM; Industry Data Exchange Association (IDEA); INFLUE-ILLICOM GROUP; Inovis; The Kodiak Group; LANSA; Liaison Technologies; nuBridges, LLC; Ontuet; Oracle Corporation; Prodika; RedTail Solutions, Inc.; SAP; SRC System Integrators; Sterling Commerce; Tibco Software Inc.; TIE Commerce; and webMethods.

“1SYNC Solution Partners are central to our mission to promote broad utilization of data synchronization,” said Bob Noe, the CEO of 1SYNC. “This program is one of several flexible implementation options available to 1SYNC customers so they can quickly put this technology to work and achieve a timely return on their data synchronization investment.”
